Section	N/A
Number of Interns	4

## Project Description

The Department of Veterans Affairs Digital Media Engagement Team is looking for interns to help create amazing videos to reach out to and tell the stories of Veterans. DME is a small, flexible group of professionals that value innovative ideas and out of the box thinking. As a Video Editing intern, you will assist in all aspects of video creation. You will be expected to possess knowledge of and experience with non-linear video editing software. You must be able to convert and transcode High Definition video to a variety of professional video formats used in web-based delivery. You must have the ability to plan, organize, and edit complex video projects in various stages of production and post-production. This includes various genres; news-style, long format documentary, industrial video, marketing, PSA’s, etc.

As a Video Editing Intern your typical work assignments may include:

Capturing raw digital footage from cameras (provided by VA) and selecting the segments to include in the finished product. Arranging the segments on a timeline in the correct order to match the final script. Other types of media, such as sound effects, music, dialogue and animation may also be added. Other duties as assigned.

## Desired Skills Interests

## **Additional Information**

You will need to provide your own video editing software and screen capture software. You must have access to the software we need videos created for. If you use audio or graphics outside of those provided for you by us, they must be royalty-free, non-copyrighted materials and approved by us. You must provide us with the source files and the final video files for each video.

## **Language Requirements**

*None*
